The American Fisheries

FISH ARE YOUR BUSINESS.

That's why, like all successful businessmen, you should read the trade publication that reports on your business. In depth. Nationwide. In the case of the fishing industry, that publication is NATIONAL FISHERMAN. Each month, NATIONAL FISHERMAN brings you the information you need to help maximize your profits.

It will tell you how, as a businessman in the fishing industry, you can best take advantage of tax laws . . . about getting bank help and financing . . . about trends in prices, and expectations for the future.

It will tell you about new technology in the fishing industry . . . the latest research findings on subjects such as fish migrations, sea currents, and weather trends . . . about new equipment and electronics that can cut costs and increase profits.

Get the next 13 issues of NATIONAL FISHERMAN (12 monthly issues, PLUS the annual Yearbook) for just $15 — tax deductible. (Outside the U.S., $23 per year. Air mail rates available on request.) Send your check today to:

National Fisherman
21 Elm Street, Camden, Maine 04843

$8/yr.
For marine management, scientific, engineering, and technical personnel.

Aquaculture

Advances in Aquaculture, edited by T.V.R. Pillay and W.A. Dill. Fishing News Books. £52.00. 1979.

Based on the FAO Aquaculture Conference held in Kyoto, Japan, this work ranks as the most comprehensive and complete compendium of practical and scientific knowledge produced in the field of aquaculture. Contains 117 papers by 178 world-reknown specialists. Includes coverage of technical subjects as well as matters of business, development, insurance and research and extension services.

Aquaculture Engineering, by Frederick W. Wheaton. International Marine Publishing Company. 1977. $42.50.

Focuses on technical problems associated with the production of food and fiber from aquatic resources. Can be understood by non-engineers as well as engineers.

Aquaculture in Canada: The Practice and the Promise. Unipub. $6.00.

Investigates current status and potential, commercial and government fish production, marketing, species selection, and importation.

Aquaculture in the 1980's. International Resources Development, Inc.

Aquaculture in the United States: Constraints and Opportunities. Committee on Aquaculture, National Research Council, National Academy of Sciences. $7.50.

Current and potential production systems for food fish and others; science and technology; business and economic aspects; and legal and administrative factors of aquaculture.

Culture of Bivalve Molluscs, by Peter R. Walue. (Second edition). Fishing News Books. £6.50

Surveys developments in the cultivation of oysters and other bivalves over the past 50 years, present conditions and studies likely future trends.

Eel Capture, Culture, Processing and Marketing, by David M. Forrest. Fishing News Books. £7.25.

Discusses the international eel market, including elver capture and marketing, eel culture, eel capture, processing, and marketing.

Eel Culture, by Atsushi Usui. Fishing News Books. £7.75.

With sections covering conditions in Europe, America, Australia, and New Zealand, this book covers such topics as choosing the site for an eel farm, eel farm design and construction, feeding eels and water quality control.

Facilities and Methodology for the Culture of the Southern Sea Bass, by D.E. Roberts, Jr., Brian V. Harpster, Walter K. Haverns, and Keith R. Halscott. Florida Department of Natural Resources. No charge.

A study of a closed system for mass culture of marine finfish larvae.

Farming the Edge of the Sea, by Edwin S. Iversen. (Second edition). International Marine Publishing Company. $40.00.

Described by its publisher as a "necessary piece of equipment" for anyone considering sea farming. A thorough assessment of the practicalities in tropical, subtropical and temperate zones.

Farming the Waters, by Peter R. Limburg. Beaufort Books. $9.95.

A general introduction to all phases of aquaculture from backyard operations to commercial farms. Discusses problems and solutions and includes suggestions for do-it-yourselfers and fish farmers. Also tells where to obtain supplies.

Fish and Shellfish Farming in Coastal Waters, by P.H. Milne. Fishing News Books. £10.50.

Provides detailed information covering all phases of sea farming with case studies of successful ventures throughout the world. Particular attention is given to site selection, sea farm design, and construction and culture techniques.

Planning of Aquaculture Development, T.V.R. Pillay. (FAO) Fishing News Books. £4.80.

Attention is given to the basic data required for aquaculture planning; the varying needs of small-scale rural aquaculture and large-scale industry. Other chapters deal with auxiliary industries, manpower needs and training, research and information, investment decisions and financing, legal rights to sites and stocks, disease control and public health safeguards, conflicts in land and water use, pollution and other environmental problems.

Practical Shellfish Farming, Phil Schwind. International Marine Publishing Company. 1977. $8.95.

Learn the best locations and methods for shellfish farming, also the problems, from public fishing vs. private, to dealing with predators. Tells how to raise quahogs, clams, mussels and oysters.

Salmon and Trout Farming in Norway, by David J. Edwards. Fishing News Books. £9.00.

The author describes the techniques by which Norway became one of the world leaders in farming salmon and rainbow trout. Techniques of salmonid farming thoroughly described and well illustrated.

Shrimp and Prawn Farming in the Western Hemisphere, by Joe A. Hanson and Harold L. Goodwin. Academic Press. 1977. $29.00

A compendium of up to date practical information on culturing penaeid shrimp and the freshwater prawn (Macrobrachium), written specifically with the nonspecialist in mind.

Textbook of Fish Culture, Breeding and Cultivation of Fish, by Marcel Huet. International Marine Publishing Company. $48.00.

Fish farming methods, including ponds and fish suitable for control and increase of production, enemies, diseases, and harvesting of fish.

Trout Farming Handbook, by S. Drummond Sedgwick. Pendragon House, Inc. $21.00.

World Fish Farming: Cultivation and Economics, by E. Evan Brown. AVI Publishing Company. $20.50.

Covers all aspects of aquaculture in 28 countries and describes cultivation in fresh, salt and brackish waters.

Fishing Gear and Craft

Boatbuilding Down East: How to Build the Maine Lobsterboat, by Royal Lowell. International Marine Publishing Company. $20.00.

One of Maine's best-known designers and builders of lobsterboats tells the secrets that make his boats admired wherever they are seen. Text and drawings cover mold and pattern making, setting up, framing, planking, deck and cabin joinery and include study plans for a 36-footer.

Boatbuilding With Plywood. Glen-L Marine.

Commercial Fishing Methods — An Introduction to Vessels and Gear, by John C. Sainsburg. International Marine Publishing Company. $16.50.

Originally written as a text for the commercial fisheries program at the University of Rhode Island, the book is a fundamental introduction to the world's principal commercial fishing methods and gear.

Echosounders and Radars for Fishing Vessels, by Capt. Arnold Weiss. Krupp Atlas-Elektronik. (Limited supply available at no charge.)

A practical guide to selecting and using echosounders and radars published by a manufacturer of electronic equipment.

FAO Catalogue of Fishing Gear Designs, edited by Joachim Scharfe. International Marine Publishing Company. $25.00.

The essentials of nearly 100 designs of nets and rigging described in concise detail. Designs were selected for proven commercial efficiency.

FAO Catalogue of Small Scale Fishing Gear, edited by C. Nedelec. International Marine Publishing Company. $25.00.

Presents a representative sampling of small-scale gear for inshore and coastal fishermen, with clear drawings to show how such gear is stowed, handled, set out, and collected.

FAO Investigates Ferro-Cement Fishing Craft, edited by John Tyson. Fishing News Books. £15.50.

The advantages and pitfalls of ferro-cement construction are discussed under the headings: material properties, scantlings and regulations, construction methods and costs, and service experience.

Fishermen's Knots and Nets, by Raoul Graumont and Elmer Wenstrom. International Marine Publishing Company. $6.50.

Contains text and photographs describing more than 400 knots for the commercial fisherman, fishing traps and seines, net making, and net repairing.

Fishing Boats and Their Equipment, by Dag Pike. International Marine Publishing Company. 1979. $18.75.

Covers contemporary fishing vessels, construction, materials, power, electronics, gear and maintenance.

Fishing Boats of the World—1, Fishing Boats of the World—2, Fishing Boats of the World—3, edited by Jan-Olaf Traung. International Marine Publishing Company. $52.50, $58.50, $55.50.

Each volume reports the proceedings of the corresponding Fishing Boat Congress. Filled with details, reports, boat plans and surveys.

Guide to Fishing Boats and Their Gear, by Carvel Hall Blair and Willet Dyer Ansel. International Marine Publishing Company. $6.00.

A brief introduction to fishing vessels and gear around the world.

How to Build Boat Trailers. Glen-L Marine.

How to Fiberglass Boats. Glen-L Marine.

How to Make and Set Nets, by John Garner. International Marine Publishing Company. $12.00.

A detailed how-to book dealing with machine-made nets. Includes a glossary of some 1,000 fishing gear terms.

Hydraulics in Commercial Fishing, Maryland Sea Grant. 1977. (No charge.)

Contains information on basic hydraulic principles, selection of components, building systems reservoirs, troubleshooting, heat generation, and general maintenance and installation procedures.

Inboard Motor Installations. Glen-L Marine.

Marine Refrigeration and Fish Preservation, by John T. Mead. International Marine Publishing Company. $25.00

A new edition of a manual covering refrigeration, its installation, its maintenance and use.

Mending of Fish Nets, by L. Libert and A. Maucorps. Unipub. $10.00.

How to fix fishing nets, including cutting, knotting, making meshes, inserting patches, etc.

Modern Deep Sea Trawling Gear, by John Garvern. International Marine Publishing Company. $22.50.

Covers such subjects as conventional trawl net assembly and rigging practices, otterboards and developing gear for stem trawlers.

Modern Fishing Gear of the World, I;
Modern Fishing Gear of the World, II;
Modern Fishing Gear of the World, III; edited by Hilman Kristjowsson. Unipub. $46.25, each volume.

Reports based on the proceedings of the International Fishing Gear Congresses. Each volume covers hundreds of fishing gear designs and methods.

Modern Inshore Fishing Gear, Second Edition, by John Garner. Fishing News Books. (Write for price and additional information.)

The first edition, published in 1978, demonstrated the recent advances in the design, rigging and setting of trawls. The second edition, to be published sometime in 1981, will be extended to make it more helpful to inshore fishermen choosing their gear.

Netting Materials for Fishing Gear, by Gerhard Klust. Fishing News Books. £3.50.

An FAO manual which analyzes natural and synthetic fibers and their characteristics, methods of making nets and the selection of materials for different types of fishing gear.

Otter Board Design and Performance. Unipub. $15.50.

An FAO publication intended to serve as an aid to the understanding of the design, construction and performance of various types of otter boards currently in use in trawl fishing throughout the world.

Pelagic and Semi-Pelagic Trawling Gear, by John Garner. International Marine Publishing Company. $27.00.

The development, rigging and use of gear for pelagic trawls, written with the assumption that there is a need for specialized, or unit, fishing aimed at the selective catching of mature shoals to avoid mass damage of juvenile stocks.

Refrigeration on Fishing Vessels, by J.H. Merrit. International Marine Publishing Company. $21.00.

An updated edition of a standard British text, it covers spoilage and refrigeration, icing, the fish room, insulation, refrigerated seawater, refrigeration plants, freezers and freezing at sea.

Rigging Small Sailboats. Glen-L Marine.

Seine Net Fishing, by David Thomson. (Originally The Seine Net: Its Origin, Evolution, and Use.) Fishing News Books. (Write for price and additional information.)

This revision of an earlier authoritative work is due for release in 1981 and will reflect the increased importance of seining as the need continues to increase for fuel efficient fishing methods that produce high quality catches without damaging fishing grounds.

The Stern Trawler, edited by Peter Hjul. International Marine Publishing Company. $27.00.

A complete study of stern trawlers covering development of the vessel type, gear used aboard, and handling and processing the catch.

Bibliographies and Catalogs

Bibliography for Fishermen's Training. (Fisheries Technical Paper No. 184.) Unipub (FAO). 1979. $10.00.

Bibliography of Living Marine Resources. Unipub (FAO). 1977. $6.00.

Conservation Directory. National Wildlife Federation. $6.00.

Annual. Lists organizations, agencies, and officials concerned with use and management of natural resources. Lists periodicals and directories of interest to those similarly concerned.

FAO Books in Print. Unipub. An annual catalog of books published by the FAO.

Index to Publications, 1946-1978, compiled by Douglas Kimberly and Joel Cowger. Maine Department of Marine Resources. 1979. (Write for price and other information.)

Marine Electronics Users and Buyers Handbook. Electra Yacht. $4.95.

A catalog and guide to marine electronics with technical data and practical information.

Marine Environmental Affairs Bibliography, by Margaret Galey. Law of the Sea Institute, University of Rhode Island. 1977. (Write for price and other information.)

An annotated listing of books, periodical articles, reports and other bibliographies.

The Mariner's Catalog (Vols. II-VII). International Marine Publishing Company. Vol. II, $4.95; Vol. III, $5.95; Vol. IV, $6.95; Vol. V & VI, $7.95; Vol. VII, $8.95.

Source books for a variety of marine products.

Marine Science: Selected Publications of FAO, FNB, IAEA, UNESCO, WMO. Unipub.

Lists books available in such subjects as fishery resource development and management, marine pollution, processing and marketing fishery products, oceanography and fishery methods and equipment. Unipub also has other book lists available on request.

NOAA Scientific and Technical Publications Announcement. (NOAA Publications List No. 5, Revised.) National Marine Fisheries Service.

A thorough listing of marine fisheries review reprints and technical papers.

Selected Sea Grant Advisory Publications for the Fishing Industry. Pacific Sea Grant Advisory Program. Updated 1979.

An annotated listing of Sea Grant publications pertaining to the commercial fisheries.

Sea Grant Publications Index. National Sea Grant Depository. Updated annually. Now available only on microfiche, but through 1979 the index was available as an annual publication.

Lists reports and studies conducted under Sea Grant programs and available for ordering.

World List of Aquatic Sciences and Fisheries Serial Titles. 1976. $13.50. Supplement I, 1977, $12.00; Supplement II, 1978, $8.75. (FAO Fisheries Technical Paper No. 147.) Unipub.

Fish Processing

A Complete Course in Canning, edited by Anthony Lopez, Ph.D. The Canning Trade, Inc. 1981. Set $75.00, each vol. $45.00.

Book I: Basic Information on Canning.

Book II: Processing Procedures for Canned Food Products.

Control of Fish Quality, by J.J. Cornell. (Second edition.) International Marine Publishing Company. $25.50.

A standard British text covering such topics as acid content, additives, artificial preservatives, brittleness of dried fish, chemicals to control spoilage, dehydration, fat content and more. Also includes an excellent bibliography and an appendix: "United States Standards for Grades of Whole or Dressed Fish."

Fishery Products, edited by Rudolf Kreuzer. Fishing News Books. 19.75. Unipub. $55.00.

A 1975 FAO publication based on the UN Technical Conference on Fishery Products held in Tokyo. Provides guidance on handling, preserving, processing, and marketing fishery products; exploitation of underutilized resources, fish meal and oil, minced and powdered products, processing technology, reprocessing, management training and market expansion.

Fishing Ports and Markets, FAO Economics Division. Fishing News Books. 15.00.

A report on the results of the UN Conference on Fishing Ports and Port Markets. Tells how to improve harbors, landing facilities and how to develop better marketing and distribution systems.

Freezing and Irradiation of Fish, edited by Rudolf Kreuzer. Fishing News Books. 15.00.

Based on the FAO Conference on Freezing and Irradiation of Fish held in Madrid, this book covers freezing fish at sea; freezing and processing frozen fish; economics of producing and marketing frozen fish; storage and distribution; and preservation by irradiation.

Industrial Fishery Technology, by Maurice E. Stansby. Kreiger. 1976. $18.50.

Manual on Fishermen's Cooperatives. Unipub, (FAO). 1971. $8.25.

Deals with management problems and analyzes marketing and supply cooperatives.

The Marketing of Shellfish, by W.S.W. Nowak. International Marine Publishing Company. $18.00.

Analysis of the British, European, and North American methods of marketing shellfish; processing to dispatch, including supply, demand, market efficiency, legal considerations, quality control and trends and methods in the shellfish industry.

Multilingual Dictionary of Fish and Fish Products, Second Edition, by the Organization for Economic Cooperation and Development. International Marine Publishing Company. $48.00.

Pulls together 1,117 names of fish and fishing industry terms, defines them in English and gives equivalent terms in Danish, Dutch, German, Greek, Icelandic, Italian, Japanese, Norwegian, Portuguese, Spanish, Swedish, Turkish, and Serbo-Croat. The new edition has added many regional variations to the names of the fishes.

Refrigeration on Fishing Vessels, by J.H. Merrit. International Marine Publishing Company. $21.00. 1978.

Covers spoilage and refrigeration, icing, the fish room, fish room insulation, mechanical refrigeration with ice, refrigerated seawater, refrigeration plant, freezers, the cold store, and freezing at sea.

Seafood Fishing for Amateur and Professional, by R.C. O'Farrell. Fishing News Books. 4.00.

Details on the practical application of small boat gear are given in this entertaining account of the methods used by the author during his fishing career.

Testing the Freshness of Frozen Fish, by Edith Gould and John A. Peters. State Mutual Books. $16.00. 1978.

Analyzes existing fish-testing criteria, draws conclusions, and makes proposals regarding potential new testing procedures.

Trilingual Dictionary of Fisheries Technological Terms: Curing. Unipub (FAO). $12.50. 1972.

Arranged in English alphabetical order, with the indexes in French and Spanish. Most terms are annotated.

Fishing Methods and Practices

Commercial Fishing Methods: An Introduction to Vessels and Gear, by John C. Sainsbury. 1971. International Marine Publishing Company. $16.50.

Written as a text for training commercial fishermen at the University of Rhode Island. Describes the major types of gear and catching methods, including bottom otter trawling, bottom pair trawling, multi-rig trawling, midwater trawling, dredging, purse seining, seine netting, gill nets, traps, longlines, pots, trolling, harpooning and pole and line.

Fish Catching Methods of the World, by Andre von Brandt. 1972. International Marine Publishing Company. $23.50.

Comprehensive illustrated survey of most of the known methods of catching fish.

Fishermen's Handbook, edited by Capt. W.H. Perry. 1980. International Marine Publishing Company. $29.25.

Updated version of the 1910 Fishermen's Handy Billy, subsequently the Trawlermen's Handbook. Aims to include simple explanations and illustrations of the many practical situations involved in commercial fishing, practical seamanship, safety and survival at sea, navigation watch keeping and shipbuilding.

The Fishing Cadet's Handbook, by A. Hodson. International Marine Publishing Company. 1970. $6.00.

Two main functions of the book are a run-down of gear and equipment to be found on fishing vessels and a section on standardized terms for this equipment. Also describes layout, equipment and operation of a trawler, care of the catch, rules for ensuring safety at sea, the common fish likely to be caught, and contents of the "Bosun's Store."

Fishing with Electricity, by R. Vibert. Fishing News Books. £7.00.

Summarizes the use of electric fishing and screening in fresh water, also reviews status of basic research in electrophysiology and applied electric fishing and identifies gaps in knowledge requiring further research.

Fishing with Light, by M. Ben-Yami. Fishing News Books. £3.75.

Reviews developments in fishing with light and its various applications by fishermen of many countries, describing in technical detail the most important commercial light fishing techniques of today.

Handy Medical Guide for Seafarers, by R.W. Scott. Fishing News Books. £3.00.

Provides quick, precise information for anyone with a minimum of first aid knowledge in an emergency situation.

Inshore Fishing, by Stan Judd. International Marine Publishing Company. 1971. $21.00.

A practical manual, an entertaining story and a blend of wit and humour are combined in this volume, which vividly recounts how and why the author took up inshore fishing as a way of life

and how he managed to cope with the difficulties and frustrations with which a fisherman has to contend.

Navigation Primer for Fishermen, by F.S. Howell. Fishing News Books. £5.75.

A primer to help all inshore and coastal fishermen gain a better understanding of the principles of navigation.

The North Pacific Deckhand's and Alaska Cannery Worker's Handbook, by John Higgins. International Marine Publishing Company. 1978. $5.95.

Tells what it is like to work in all the commercial fisheries from San Francisco to Kodiak. Combines practical information like where the jobs are, who hires, what the work is like, and how much you can expect to earn.

Pair Trawling and Pair Seining, The Technology of Two-Boat Fishing, by David Thomson. International Marine Publishing Company. 1978. $36.00.

How to trawl and seine using two or more vessels working in company. Factual accounts of pareja, bull, Baltic and cod pair trawling, Canadian pair seining, freshwater and midwater pair trawling, ring net fishing and two-boat purse seining and the technique of fleet operations.

Sonar in Fisheries: A Forward Look. State Mutual Books. 1978. $19.50.

The understanding and appreciation of the use of sonar equipment on fishing boats.

Training Fishermen at Sea, by Birgir Hermansson. (FAO) Fishing News Books. £3.50.

To provide a guide for training fishermen on board training vessels of 100 to 200 GT (except engine-room personnel). Most of the information provided in the manual is relevant to any fishery training on board a training vessel.

Fish Identification and Resource Guides

About Lobsters, by T.M. Prudden. International Marine Publishing Company. 1962. $5.95.

A comprehensive study of the lobster — how it lives, how it is caught and how it is eaten.

American Food and Game Fishes, by D.S. Jordan and B.W. Evermann. Dover 1969. $5.00.

Atlas of the Pacific Northwest, 6th edition, edited by Highsmith and Kimerling. Oregon State University Press. 1979. $8.00.

A Century of Fisheries in North America, edited by N.G. Benson. 1970. American Fisheries Society. $3.45.

Compendium of Current Marine Studies in the Pacific Northwest. Oceanographic Institute of Washington. 1979. $30.00.

Project abstracts provide valuable research information and a means for direct contact among researchers and managers working in similar marine fields.

Encyclopedia of Marine Resources, by Frank E. Firth. Van Nostrand Reinhold. 1969. $29.50.

Field Book of Marine Fishes of the Atlantic Coast, by Charles Bueder. G.P. Putnam's Sons. 1948. $7.95.

Fisheries of the North Pacific: History, Species, Gear and Processes, by Robert J. Browning. International Marine Publishing Company. Revised edition: $24.95.

Covers every aspect of Pacific fishing.

Fishes of the Great Lakes Regions, by Carl L. Hubbs and Karl F. Lagler. University of Michigan Press. 1964. $9.95.

Fishes of the Gulf of Mexico, by Dickson Hoese. Texas A & M University Press. 1977. $7.95.

Fishes of the World: An Illustrated Dictionary, by Alwyne Wheeler. Macmillan. 1975. $12.98.

Each fish is described according to range, size, habitat, commercial importance, behavior, and biology.

The Fish Resources of the Ocean, edited by John Gulland. State Mutual Books. $37.00.

Provides basic information on resources to indicate possibilities for the development of new fisheries and provides data for early warning of the need for conservation and management.

Glossary of Fish Health Terms, edited by G. Post. American Fisheries Society. 1977. $5.00.

Guide to Marine Fishes, by Alfred Perlmutter. New York University Press. 1961. $5.95.

A List of Common and Scientific Names of Fishes from the U.S. and Canada, edited by R.M. Bailey. American Fisheries Society. 1970. $4.00.

Living Fishes of the World, by Earl Herold. Doubleday. 1975. $19.95.

The National Shark-o-pedia. The Janus Company. $6.75.

Northern Fishes, by Samuel Eddy and James C. Underhill. University of Minnesota Press. 1974. $12.50.

Reservoir Fisheries and Limnology, edited by G.E. Hall. American Fisheries Society. 1971. $4.95.

Selected Coolwater Fishes of North America, edited by R.L. Kendall. American Fisheries Society. 1978. $15.00.

Tuna: Distribution and Migration, by Hiroshi Nakamura. Fishing News Books. £3.50.

Different varieties of tuna show affinity to different oceanic currents.

Fish Science and Technology

Advances in Fish Science and Technology, edited by J.J. Connell. Fishing News Books. 1980. £39.00.

Eighty papers by 133 world specialists review past, present and future trends in fish science and technology. The book is divided into two parts; technology, including changes in fish resources and the influence of technology on industries — fish handling methods and utilization and scientific aspects. The second section is recent advances under headings such as minced fish, smoking, krill by-products, etc.

Atlantic Salmon: Its Future, by A.E.J. Went. Fishing News Books. 1980. £10.50.

Experts from both sides of the Atlantic met to discuss ways of ensuring the future of salmon; stock situation, international legal position and types of exploitation. Papers on cultivation dealt with ocean ranching, management in floating sea pens and aspects of genetics.

The Biology and Management of Lobsters, edited by J. Stanley Cobb and Bruce F. Phillips. Academic Press. 1980. Set $89.50, vol. I $55.00, vol. II $45.00.

Volume I: Physiology and Behavior

Volume II: Ecology and Management

Summarizes and reviews the current state of lobster biology, ecology, physiology, behavior, and management. It emphasizes the biology of clawed lobsters (Nephropidae) and spiny lobsters (Palinvridae) and also gives attention to slipper lobsters (Scyllaridae) and coral lobsters (Synaxidae).

Biology of the Oceanic Pacific, edited by Charles Miller. Oregon State University Press. 1974. $7.00.

Columbia River Salmon and Steelhead, edited by E. Schwiebert. American Fisheries Society. 1976. $10.00.

Control of Fish Quality, by J.J. Connel. Fishing News Books. 1980. £8.50.

This book sets out to establish a set of standards which will serve as a guide to fish technologists, industrial technical managers and fishery administrators around the world. The aim is to provide sound practical advice, in as non-technical language as possible, on fish and fishery products control.

The Economics of Fisheries Management, by Lee Anderson. Johns Hopkins University Press. 1977. $15.00.

Economic Impacts of Extended Fisheries Jurisdiction, edited by Lee Anderson. Ann Arbor Science Publishers, Inc. 1977. $36.00.

Proceedings of a symposium discussing international and industry aspects of extended jurisdiction, management problems, and suggestions for control.

The Fertile Sea, by A.P. Orr and S.M. Marshall. State Mutual Books. 1978. $20.00.

Explains the complex matter of chains of life in the marine environment.

Fish Health Blue Book: Procedures for the Detection and Identification of Certain Fish Pathogens, edited by D.W. McDaniel. American Fisheries Society. 1979. $10.00.

Fish Nutrition, edited by John E. Halver. Academic Press. 1972. $52.75.

For the serious student of the subject.

Fisheries and Energy Production, by Saul B. Saila. Lexington Books. 1975. $17.95.

Fisheries Oceanography, by Ilmo Hela and Tairo Laevastu. International Marine Publishing Company. $24.00.

A book of information intended for the practical fisherman to help him in interpreting data and weather information and for fisheries administrators in establishing and organizing efficient forecasting services.

Fisheries Resources of the Sea and Their Management, by David H. Cushing. Oxford University Press. 1975. $12.95.

Food from the Sea: The Economics and Politics of Ocean Fisheries, by Frederick W. Bell. Westview. 1978. $30.00.

Designed as a study book in the economics and trends in world fisheries, contains tables and graphs.

Guidelines for Striped Bass Culture, by E.W. Bonn et al. American Fisheries Society. 1976. $5.00.

Handbook of Trout and Salmon Diseases, by Ronal J. Roberts and C. Jonathan Shepherd. Fishing News Books. £8.50.

Practical manual of real help to the hatcheryman, fish farmer, resource manager and angler. Prior knowledge of fish biology or pathology is not necessary.

International Management of Tuna, Porpoise, and Billfish: Biological, Legal, and Political Aspects, by James Joseph and Joseph Greenough. International Marine Publishing Company. $22.50.

Introduction to Fishery Sciences, by William F. Royce. Academic Press. 1972. $20.50.

Managing the Sea's Living Resources, by H. Gary Knight. Lexington Books. 1977. $15.95.

Marine Ecology and Fisheries, by D.H. Cushing. Cambridge University Press. 1975. $45.00.

The Marine Plant Biomass of the Pacific Northwest Coast, edited by Robert Krauss. Oregon State University Press. 1978. $15.00.

Marine Pollution and Sea Life, by Mario Ruivo. Fishing News Books. £20.00.

Covers pollution in various coastal and sea areas, the behavior of pollutants on organisms and ecosystems countermeasures, and the scientific basis for legislative control.

Optimum Sustainable Yield as a Concept in Fisheries Management, edited by P.M. Roedel. American Fisheries Society. 1975. $4.00.

The Pacific Salmon Fisheries: A Study of Irrational Conservation, by James A. Crutchfield and Giulio Pontecorvo. Johns Hopkins Press. 1969. $12.50.

Details history of Alaska and Puget Sound Fisheries, recommends an alternative regulatory program. Includes graphs and statistics.

Principles of Fishery Science, by W. Harry Everhart. (Second edition.) Cornell University Press. $16.50.

Aimed primarily at graduate and upper division undergraduate students, a general text and reference book in fisheries management.

Reservoir Fishery Resources Symposium. American Fisheries Society. 1967. $10.00.

Salmonid Ecosystems of the North Pacific, edited by William J. McNeil and Daniel C. Himsworth. Oregon State University Press. 1980. $15.00.

Contains 17 articles that present current research on the freshwater and saltwater ecosystems that affect salmon survival and growth, on salmon population dynamics, and on artificial propagation of various Pacific salmon species.

Salmon Fishers of the Columbia, by Courtland Smith. Oregon State University Press. 1980. $15.00.

A Symposium on Diseases of Fishes and Shellfishes, edited by S.F. Snieszko. American Fisheries Society. 1970. $5.95.

Symposium on Overharvest and Management of Largemouth Bass in Small Impoundments, edited by J.L. Funk. American Fisheries Society. 1974. $3.00.

Trout Farming Manual, by John P. Stevenson. Fishing News Books. 1980. £9.75.

A practical, authoritative and comprehensive guide to the techniques of farming brown and rainbow trout. Although written primarily for those contemplating starting a fish farm or seeking a career in this field, it is so practical that established trout farmers will find many valuable hints on improving productivity and improving techniques.

Government Publications and Charts

Coast Pilots. National Ocean Survey.

Three volumes on the Atlantic, Gulf, and Pacific coasts. Supplements navigational charts with information on navigation, port facilities, hazards, channels, etc.

Eldridge Tide and Pilot Book. Robert E. White Instruments, Inc. Not a government publication.

Great Lakes Pilot. National Ocean Survey.

Supplements navigational charts with information on navigation, port facilities, hazards, channels, etc.

Light Lists. Superintendent of Documents, GPO.

Lists lighted aids to navigation, radio beacons, fog signals, buoys and daymarks. Vol. 1, Atlantic Coast, Maine to South Carolina, $10.00; Vol. 2, Atlantic and Gulf Coasts, South Carolina to Texas, $9.50; vol. 3, Pacific Coast and Pacific Islands, $8.00; vol. 4, Great Lakes, $6.50; vol. 5, Mississippi River System, $8.00.

Local Notices to Navigation. U.S. Coast Guard District Office (see listing of addresses in individual sections).

Periodic listing of information vital to the safety of navigation in each Coast Guard District.

Tidal Current Tables. National Ocean Survey.

Daily predictions of the times of slack water, and the times and velocities of flood and ebb currents. Two volumes: Atlantic and Pacific Coast.

Tide Tables. National Ocean Survey.

Tide predictions (time and heights) for major ports and time differences to interpolate for minor locations. Two U.S. volumes: East Coast and West Coast.

Publications for Safe Navigation. National Ocean Survey.

Brochure listing information about NOS nautical charts and chart-related publications.

NOS Nautical Chart Catalogs. National Ocean Survey.

No. 1 — Atlantic and Gulf Coasts including Puerto Rico and the Virgin Islands.

No. 2 — Pacific Coast and Hawaii

No. 3 — Alaska

No. 4 — Great Lakes and adjacent waterways.

Each catalog identifies the specific charts available for the area. Also listed are publications about tides, currents, marine weather, etc.

Foreign Waters.

East Coast: Defense Mapping Agency, Hydrographic Center Depot, 5801 Tabor Ave., Philadelphia, PA 19120.

West Coast: Defense Mapping Agency Depot, Hydrographic Center Detachment, Clearfield, VT 84016.

Lower Mississippi River. U.S. Army Corps of Engineers, Vicksburg District, P.O. Box 80, Vicksburg, MS 39180.

North Central Division. U.S. Army Corps of Engineers, Chicago District, 219 South Dearborn St., Chicago, IL 60604.

Missouri River. U.S. Army Corps of Engineers, Omaha District, 6014 U.S. Post Office and Courthouse, Omaha, NE 68102.

Ohio River. U.S. Army Corps of Engineers, Ohio River Division, P.O. Box 1159, Cincinnati, OH 45201.

Tennessee Valley Authority Reservoirs. Tennessee Valley Authority, Maps and Engineering Section, 416 Union Ave., Knoxville, TN 37902.

South Atlantic Division. U.S. Army Corps of Engineers, Mobile District P.O. Box 2288, Mobile, AL 36628.

Note: The following Coast Guard Pamphlets are free and available at the addresses shown.

CG-152. A Pocket Guide for Visual Distress Signals. Commandant (G-BA-2), U.S. Coast Guard, Washington, DC 20593.

CG-169. Rules of the Road, International and Inland. Commandant (G-CMA-3), U.S. Coast Guard, Washington, DC 20593.

CG-172. Rules of the Road, Great Lakes. Same as above.

CG-177. Yacht Admeasurement and Documentation. Same as above.

CG-184. Rules of the Road, Western Rivers. Same as above.

CG-190. Equipment Lists. (Approved lifesaving, firefighting and misc. equipment used aboard vessels.) Same as above.

CG-193. Marine Aids to Navigation. Same as above.

1980 Federal Requirements for Recreational Boats. Commandant (G-BA-2). U.S. Coast Guard, Washington, DC 20593.

CG-423. Marine Communications for the Boating Public (VHF). Same as above.

CG-3892. Marine Emergency and Distress Information Sheet. Same as above.

Life in the Fisheries

Alaska Blues, A Fisherman's Journal, by Joe Upton. International Marine Publishing Company. 1977. $14.95.

A season in the life of a southeastern Alaska commercial salmon fisherman. Narrative, journal entries and excellent photographs.

The Finest Kind: The Fishermen of Gloucester, by Kim Bartlett. W.W. Norton. 1977. $8.95.

Fisheries of the North Pacific: History, Species, Gear and Processes, by Robert J. Browning. Alaska Northwest Publishing Co. 1980. $24.95.

Covers every aspect of Pacific fishing. More than 75 species of fish and shellfish are described; methods, markets, and boat types are detailed.

A Living From Lobsters, by Robert Stewart. (Second edition.) Fishing News Books. £4.00.

Fishing for lobsters in England, including methods of finding lobster grounds, methods of working, boat selection and maintenance, propulsion methods, and hazards.

The North Ships: The Life of a Trawlerman, by Steven Piper. David and Charles Press. 1974. $5.50.

Pacific Troller: Life on the Northwest Fishing Grounds, by Francis E. Caldwell. Alaska Northwest Publishing. 1978. $4.95.

A narrative of the author's life as a commercial fisherman.
